

Protocol of the Scientific Committee

on the Final Results

Protocol No.	IChO/SC/2026/01
Date	18 July 2026
Venue	Tashkent, Republic of Uzbekistan
Subject	Approval of final results, medal thresholds and special awards

1 ATTENDEES

The session of the Scientific Committee was duly convened, with the following members in attendance:

Role	Name	Affiliation — Country
SCIENTIFIC COMMITTEE		
Chair	Sagdullayev Shamansur Shaxsaidovich	First Vice-President, Academy of Sciences; Academician, Professor — Uzbekistan
Co-Chair	Gladilin Alexander Kirillovich	Professor, M.V. Lomonosov Moscow State University — Russia
Member	Eremin Vadim Vladimirovich	Professor, M.V. Lomonosov Moscow State University — Russia
Member	Ben Samuel Pilgrim	Associate Professor, University of Nottingham, Dr. Sc. — United Kingdom
Member	Nan Zhihan	Research Fellow, PhD, Harvard University — USA
Member	Koronatov Aleksandr Nikolayevich	Research Fellow, Groningen University, Netherlands
Member	Shved Andrei Mixaylovich	Research Fellow, ETH Zurich — Switzerland
Member	Filip Ilievski	Research Fellow, Yale University — USA
Member	Yunus Emre Turkmen	Research Fellow, Bilkent University — Türkiye
Member	Petra Menova	Professor, Prague Institute of Chemical Technology — Czechia
Member	Garifullin Bulat Nazirovich	Gold Medalist, 30th International Chemistry Olympiad — Russia
Member	Kozlov Kirill Sergeyevich	Doctoral Candidate, M.V. Lomonosov Moscow State University — Russia
Member	Kuznetsov Fedor	Gold Medalist, 57th International Chemistry Olympiad — Russia
Member	Elmuradov Burxon Jurayevich	Professor, Institute of the Chemistry of Plant Substances; Dr. Sc. (Chemistry) — Uzbekistan
Member	Tuxtayev Xamidulla Baxtiyorovich	Research Fellow, King Abdullah University of Science and Technology — Saudi Arabia
Member	Boltayev Behzodbek Matyoqub o'g'li	Gold Medalist, 45th International Chemistry Olympiad — Uzbekistan

A quorum was established. The session was constituted in accordance with the Regulations of the International Chemistry Olympiad.

2 AGENDA

1. Review and verification of the final cumulative scores of all contestants.
2. Consideration and resolution of all appeals submitted within the appeal window.
3. Statistical analysis of the theoretical and practical examinations.
4. Determination of medal cut-off thresholds and the Honourable Mention threshold.

5. Verification of compliance with the IChO award-distribution regulations.
6. Approval of the final list of medallists and Honourable Mention recipients.
7. Approval of special awards (Absolute Winner, Best Theoretical, Best Practical).
8. Endorsement of the final ranking list and authorisation for its announcement and publication.

3 APPEALS

The Committee reviewed all appeals received during the official appeal window. Each affected script was re-marked, the resulting scores were recalculated, and the updated cumulative scores form the basis of every figure, threshold and ranking recorded in this Protocol.

4 PARTICIPATION

Parameter	Value
Total contestants	363
Participating delegations	92
Delegations receiving at least one medal	74 (80.4%)
Delegations receiving at least one gold medal	21
Delegations whose four contestants all won medals	43
Delegations without a medal	18
Theoretical examination — maximum score	60.00
Practical examination — maximum score	40.00
Combined maximum score	100.00

Independent delegations IDA and IDB comprise contestants competing without national representation, in accordance with IChO practice.

5 STATISTICAL ANALYSIS OF THE EXAMINATIONS

5.1 Descriptive statistics

Measure	Mean	Median	SD	Min	Max	IQR	% of max
Theoretical (max 60)	20.17	18.92	11.94	0.00	56.15	17.94	33.6%
Practical (max 40)	25.46	26.43	7.10	4.89	37.77	10.69	63.6%
Final score (max 100)	45.63	45.74	17.74	7.73	90.85	26.02	45.6%

SD — sample standard deviation; IQR — interquartile range (Q3 – Q1).

The two examinations behaved very differently. The theoretical paper proved substantially the more demanding of the two: contestants scored on average **33.6%** of the available marks, against **63.6%** on the practical paper. No contestant approached the theoretical maximum — the highest theoretical score was **56.15 / 60**, while the lowest was 0.00. The theoretical paper also spread the field more widely in relative terms (SD 11.94 on a 60-point scale, i.e. 19.9% of maximum, against 17.7% for the practical), and it therefore did the greater share of the work in separating contestants.

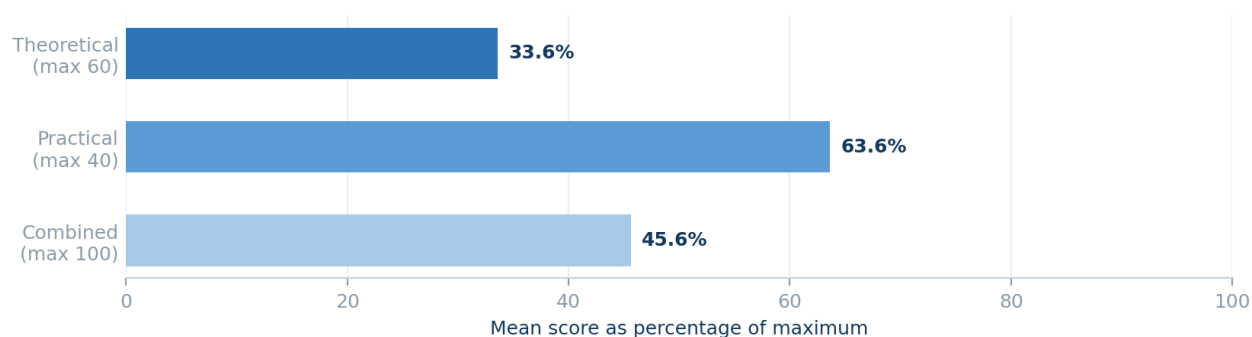

Figure 1 — Mean achievement on each examination, as a percentage of the maximum available.

5.2 Distribution of final scores

Final scores range from **7.73** to **90.85** points. The distribution is close to symmetric about its centre — the mean (45.63) and the median (45.74) differ by only 0.11 points — with the middle half of the field falling between 32.23 and 58.25. This is a well-conditioned distribution for award allocation: it is broad enough to place the thresholds without arbitrariness, and free of the clustering that would force ties at a boundary.

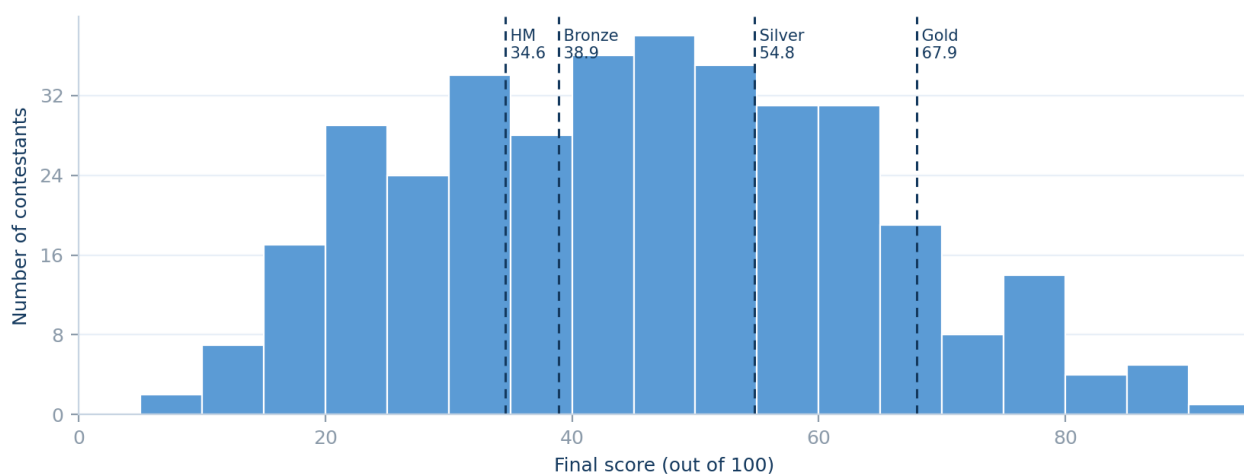

Figure 2 — Distribution of final scores, with the four award thresholds marked.

Score band	Contestants	Share of field	Cumulative (from top)
90–100	1	0.3%	1
80–90	9	2.5%	10
70–80	22	6.1%	32
60–70	50	13.8%	82
50–60	66	18.2%	148
40–50	74	20.4%	222
30–40	62	17.1%	284
20–30	53	14.6%	337
10–20	24	6.6%	361
0–10	2	0.6%	363

Table: field size within each ten-point band, and the cumulative count from the top of the ranking downwards.

5.3 Relationship between the two examinations

The Pearson correlation between theoretical and practical scores is $r = 0.7201$ ($n = 363$), a strong positive association: roughly 52% of the variance in one paper is shared with the other. The two examinations therefore largely reward the same underlying competence, while the remaining 48% confirms that the practical paper continues to measure something the theoretical paper does not — which is precisely the purpose of retaining both. The scatter below shows the award tiers separating cleanly along the diagonal, with only a small number of contestants markedly stronger on one paper than the other.

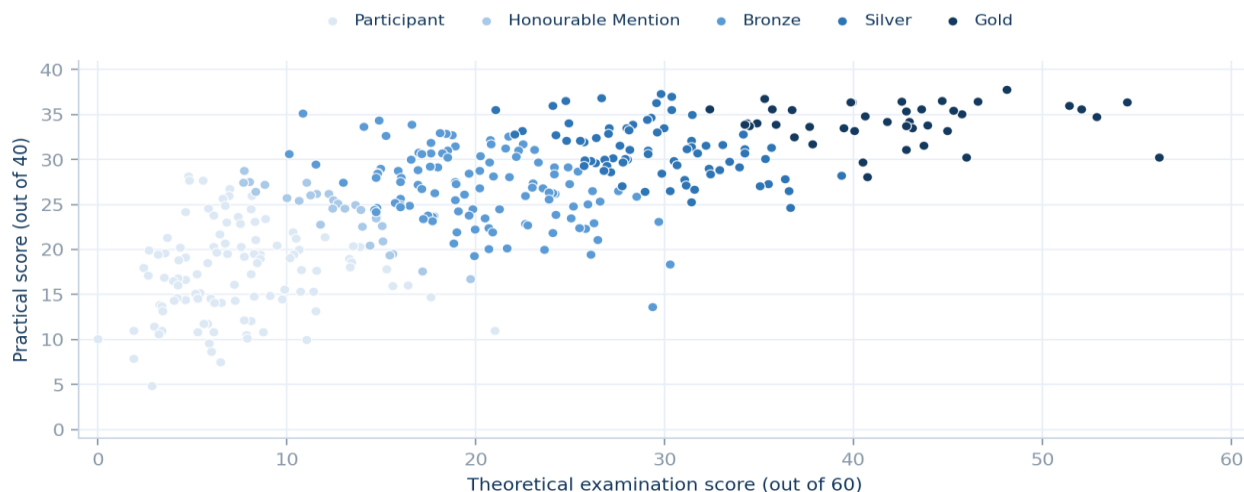

Figure 3 — Theoretical against practical score, by award tier.

6 AWARD THRESHOLDS AND DISTRIBUTION

Following deliberation, the Scientific Committee resolved to distribute medals and Honourable Mentions on the following basis:

Award	Rank range	Number	Share	Cumulative	Cut-off
Gold	1–41	41	11.29%	11.29%	≥ 67.9451
Silver	42–115	74	20.39%	31.68%	≥ 54.7745
Bronze	116–227	112	30.85%	62.53%	≥ 38.8938
Honourable Mention	228–255	28	7.71%	70.25%	≥ 34.5609
Participant	256–363	108	29.75%	100.00%	—
Total medals	1–227	227	62.53%	—	—

Where ties occur at a cut-off boundary, all tied contestants receive the higher award.

6.1 Compliance with IChO regulations

The Committee verified the distribution against the award-distribution rules of the International Chemistry Olympiad, under which gold medals go to the top 10–12% of contestants, silver to the next 20–22%, and bronze to the next 30–32%, in an approximate 1 : 2 : 3 ratio:

Criterion	IChO regulation	Achieved	Assessment
Gold medals	10–12% of contestants	11.29%	Compliant
Silver medals	20–22% of contestants	20.39%	Compliant
Bronze medals	30–32% of contestants	30.85%	Compliant

Criterion	IChO regulation	Achieved	Assessment
All medals combined	60–66% of contestants	62.53%	Compliant
Gold : Silver : Bronze	approx. 1 : 2 : 3	1 : 1.80 : 2.73	Compliant
Honourable Mentions	best ~70% of field, cumulative	70.25%	Compliant

Every criterion is satisfied. Each tier sits comfortably inside its permitted band rather than at an extreme of it.

6.2 Boundary margins and verification of ties

All 363 final scores are distinct: the ranking contains no tied scores anywhere, and therefore none at an award boundary. Each threshold is separated from the highest score below it by a clear margin:

Boundary	Cut-off score	Next score below	Margin
Gold / Silver	67.95	67.55	0.40
Silver / Bronze	54.77	54.40	0.38
Bronze / Honourable Mention	38.89	38.58	0.31
Honourable Mention / Participant	34.56	34.18	0.38

The narrowest margin is 0.3138 points, at the Bronze / Honourable Mention boundary. No threshold required a tie-breaking decision.

7 SPECIAL AWARDS

The Scientific Committee awarded the following special prizes:

- **Absolute Winner (highest overall score):** Student Code IDB-1 — 90.85 points (Theory 54.46 / Practical 36.39)
- **Best Theoretical Examination Score:** Student Code CHN-2 — 56.15 / 60 points (overall rank 5)
- **Best Practical Examination Score:** Student Code USA-2 — 37.77 / 40 points (overall rank 6)

Each special award went to a different contestant, and neither paper prize went to the Absolute Winner — a reflection of the balance noted in Section 5.3.

8 DISTRIBUTION BY DELEGATION

The table below records medals and Honourable Mentions by delegation. It is included for administrative purposes only — for the production of medals, certificates and diplomas. **The IChO is an individual competition and no official team ranking exists; delegations are ordered here by medal count solely for legibility, and this ordering has no standing under the IChO Regulations.**

9 RESOLUTIONS

Following deliberation, the Scientific Committee unanimously resolved as follows:

1. To approve the final cumulative scores of all 363 contestants as recorded in Annex 1 (Final Ranking List) to this Protocol.
2. To confirm that the final ranking contains no ties, and that each award boundary is separated from the next score below it by a clear margin (Section 6.2).
3. To approve the award thresholds: Gold ≥ 67.9451 ; Silver ≥ 54.7745 ; Bronze ≥ 38.8938 ; Honourable Mention ≥ 34.5609 .
4. To award 41 Gold Medals (ranks 1–41), 74 Silver Medals (ranks 42–115), 112 Bronze Medals (ranks 116–227) and 28 Honourable Mentions (ranks 228–255).
5. To record that the distribution complies in full with the IChO award-distribution regulations, as verified in Section 6.1.
6. To approve the special prize recipients set out in Section 7.
7. To note the highest-placed contestants from delegations that received no award, as listed in Section 8.2.
8. To note the statistical findings of Section 5, in particular the difference in difficulty between the two examinations, and to transmit them to the IChO Steering Committee for consideration in the design of future examinations.
9. To authorise the announcement of all results at the Closing Ceremony of the Olympiad.
10. To authorise the IChO 2026 Organizing Committee to issue medals, certificates and diplomas in accordance with this Protocol.
11. To publish the Final Ranking List on the official website of the Olympiad following the Closing Ceremony.

This Protocol has been read aloud, agreed upon, and signed by all members of the Scientific Committee present at the session.
